Many minds. Clearer thinking.

Give every perspective a seat.

Small Council

6 November 2026

Start with the question

- Name the decision you want to make.
- Bring the context that matters.
- Invite different AI perspectives.

Compare before deciding

Different views reveal different questions

Strategist

- Define the intended outcome.
- Keep the constraints visible.

Critic

- Examine the assumptions.
- Ask what could change the plan.

Choose how to work together

Mode	Purpose
Open	Invite particular advisors
Brainstorming	Explore possibilities
Consensus	Work toward agreement

Keep the person in control

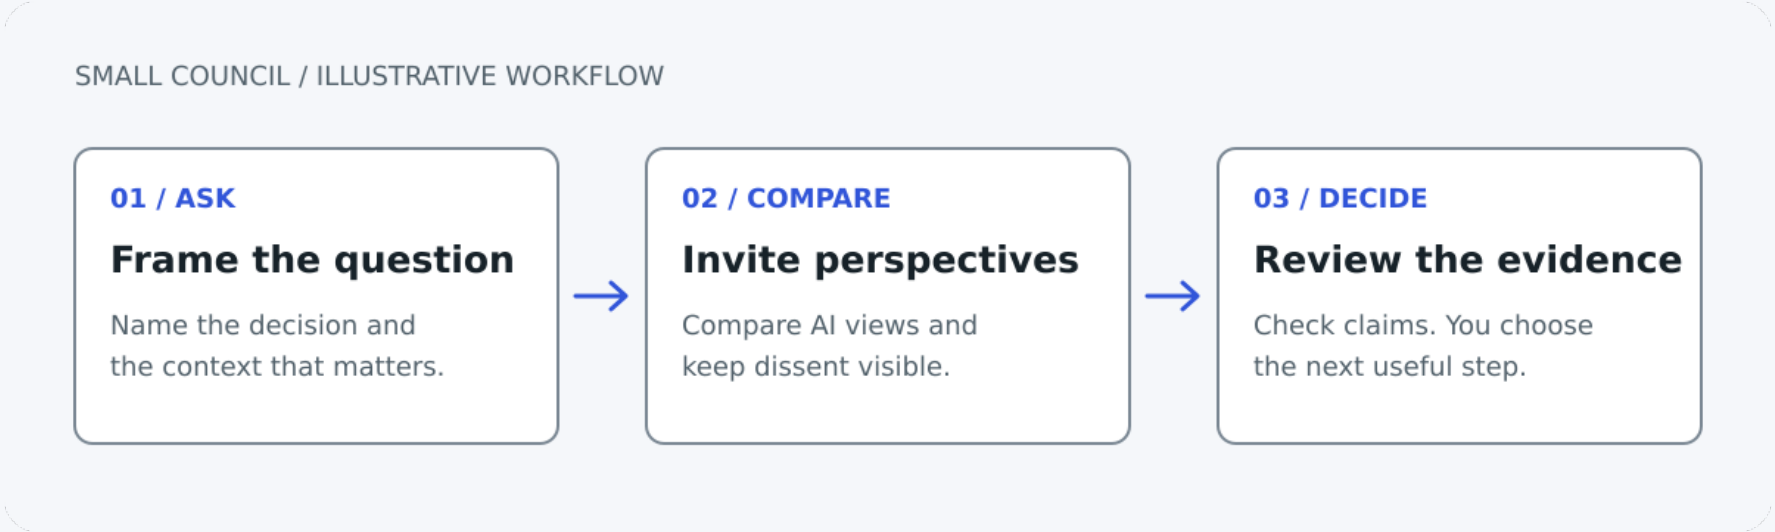

Figure 1: An illustrative question-to-decision workflow.

Preserve useful disagreement

- Make unresolved concerns visible.
- Separate facts from assumptions.
- Review the recommendation yourself.

Keep context reviewable

- Organize related conversations in spaces.
- Review the memories you keep.
- Correct context when circumstances change.

Decide what to learn next

For this fictional workshop question, ask prospective participants about their needs before choosing the pilot format.
